Dunces, Minn., March 2.—The news of a combination effected between the of a combination effected between the iron ore producers on the Gogebic range and the owners of the producing mines on the Mesaba was given out today on the authority of Lon Merritt, who has just returned from New York, where a conference was held in which representatives of the Gogebic mines and the Rockefeller Wetmore syndicate, which has just acquired large Mesaba holdings with the Merritts of this place were present. The arrangements, it is said, is not a pool, but it is a very decided mutual understanding by which the interests of each will be protected and which will absolutely prevent the cutting of prices.

lutely prevent the cutting of prices.

Furnace men have been counting greatly upon the advent of the Mesaba mines to cause a decided fall in prices and almost no purchases of ore have been made in anticipation of a lower market. The competition of the new range was expected to demoralize prices and would undoubtedly have done so had no combination been formed.

Under the agreement there is a practi-cal union of interest between the big mines of the two ranges. The ores will be handled in the east by the same brok ers and under no circumstances will either be forced to reduce rates by reasen of any action on the part of the other. It is probable, too, that the combination contemplates war with the mines of the Vermilion mines. The re-lations of the Merritts and their friends and the Minnesota people are already budly strained, and the latest combina-tion promises to result in trouble for the

Chicago Roads Refuse the Demands of Switchmen

They Prepare for One by Hiring All the Non-Union Men They Can Find.

CHICAGO, March 9,-Without a dissenting vote the general managers of the railroads entering Chicago determined at their meeting this afternoon to refuse any demands of the Switchmen's Mutual Aid society. An answer was sent to the switchmen by the general managers of the thirty two roads centering in Chicago declining to grant any increase over the present schedule of rates and inclosing the following resolution, which was passed unanimously at the

"Resolved, That this association has carefully examined the schedule of wages paid by the Chicago roads to foremen and helpers in switching service and that it finds that the scale of wages paid on the Chicago lines is practically uniform, and we find that the switchmen of Chicago and vicinity are now paid the highest rate ever paid for a similar ser-vice and higher than is paid in many

The switchmen have not yet determined what course they will pursue, and of course the association declines to discuss the situation. If they should decide to strike the fight against them would be a bitter one, as the general managers of the thirty-two roads have determined to act as a unit and fight the more as act as a unit and fight the men as one act as a unit and light the men as one road. A still more significant determination reached by the general managers is an agreement to discharge all union men on their lines in case the roads should be crippled by a strike of switchmen. This will apply to conductors, engineers, firemen, and, in fact, all branches of organized railward labor. The general ganized railroad labor. The general

Chief of Police McClaughry was pres-ent at the general managers' meeting and promised all aid in his power to enforce order in event of a strike.

The switchmen demand that the rate of pay for day foremen be made 32 cents per hour, day helpers 30 cents per hour; night foremen, 34 cents; night helpers, 32 cents, and that ten hours work be guaranteed each crew night or day. I certainly would not have soiled my hands on them if the row had been started, but would have knocked down some of them, dead sure. I bear no malice toward Hall.

"On the contrary, I am indebted to Hall for giving me a chance to win the purse, and I am not one of those fellows who grow after winning a battle. I am willing to meet Hall, but he does not seem to want to know me, and there the

Hall and his party left Fitzsimmons at the club rooms at a o'clock. He rose early this morning and started out to make some calls. He was seen the moment he appeared on the street and a hig erosed followed him wherever he sent.
